BELFAST BIOTS.

RENEWED WITH INCREASED FURY.

ENORMOUS DAMAGE.

LONDON, August 30. After a short respite rioting was renewed in Belfast yesterday with increased fury. Three attempts were made to burn the Independent Labour Hall. A new feature is the mob's preventing the deliveries of food. Fighting is proceeding. The damage since the beginning is enormous. One claim for compensation alone is £75,000.

MILITARY CONTROL SITUATION.

LONDON, August 30.

The rioting continues in Belfast with undiminished fierceness. Four persons were killed and 55 wounded to-day. Considerable damage has been done by stone throwers. Shops have been wrecked. Many business places did not open. The military with an armoured car occupy York Street. Troops have forced a passage through the combatants. The military at present control the situation but unrest generally prevails. FIGHTING ON UNPRECEDENTED SCALE.

LONDON, August 30. Sir Edward Carson has issued an appeal to the loyal citizens of Bellast to assist the authorities in quelling the disturbances, announcing that peace negotiations are proceeding with the Government. An important statement is expected on Friday. Meanwhile, fighting continues on an unpre-

cedented scale. LORD MAYOR JUST ABLE TO WHISPER.

LONDON, August 30.

The Lord Mayor's sister relates that when she visited him yesterday he was just able to whisper. He is confident that his death will do more to smash the Empire than his release. Enormous crowds gathered at the National Monument in Cork and recited the Rosary.

APPEAL TO PREMIER TO DO THE BIG THING.

LONDON, August 30.

Messis, Adamson, Thomas, Bowerman, and Henderson, Labour members of Parliament, have telegraphed Mr. Lloyd George: "The whole of organised British Labour asks you to reconsider your decision to allow the Lord Mayor of Cork to die. His sufferings are greater than those of lengthy imprisonment. His death will make the Irish solution more remote. We have appealed in vain to the Home Secretary and appeal to you to do the big thing."

TER POLISH VICTORY

FRENCH GENERAL HONOURED BY THE POLES.

BOUNDLESS ENTHUSIASM.

Paris, August 26.

A message from Warsaw on Wednesday says that General Weygand, Marshal Foch's right-hand man, whose strategy flung back the Bolsheviks, was presented yesterday with the Freedom of the City of Warsaw. The ceremony took place smid such enthusiasm that the General had to leave by a back door and through the garden to reach the banquet which was given to the British and French Missions. General Weygand caused some feeling by reading a telegram which had just been received to the effect that the Commander of a French man-of-war outside Danzig had finally prevailed on Sir Reginald Tower, the Allied High Commissioner, to permit the disembarkation of munitions of war

WRANGEL HOLDS ONLY THE CRIMEA.

The Russian delegation in London publishes terms from Moscow announcing that General Wrangel's landing forces in the Kuban region were annihilated. General Wrangel now holds only the Crimes.

STRIKE OR NO STRIKE?

MINERS' BALLOT PROVIDES NECESSARY MAJORITY FOR

IMPORTANT DEVELOPMENTS EXPECTED.

LONDON, August 30.

The miners' ballot, the figures of which are still incomplete, totals over 400,000 for a strike and 130,000 against a strike. The requisite two-thirds majority for a strike is therefore provided, but in view of the reluctance of other Trade Unions to support the strike there is possibility that a way out will be found before September when the strike notices are to be handed in. Important developments are expected to morrow when the Triple Alliance meets and the railway men and transport workers will decide on the extent of their co-operation with the miners.

JAPAN AND THE ANFU REFUGEES

THE RIGHT OF ASYLUM QUESTION.

[BY COURTESY "HONGKONG DAILY

PRESS."

PEKING, Aug. 30. The Japanese Legation has addressed a Note to the Chinese Government regrening that the latter had disapproved of the Japanese attitude regarding the Antir refugees in the legation. . The note declares that these

men were given asylum because they were political refugees, and Japan declines to surrender them on criminal or other charges.

MAN WITH TIGER SOUL

WHOLESALE MURDER.

TRANSMIGRATION THEORY ADVANCED.

"If you go exrefully through the criminal records in all history you will not find such a series of systemaric slaughterings, carried out with

such gruesomeness and ferocity." These words, spoken in the Berlin Criminal Court, had reference to man who, standing in the dock, handcuffed and surrounded by armed police, is charged with no fewer than 5 crimes, all of a terrible character, mostly against women, and including seven murders, eleven attempted murders, and two cases of incendiarism, the purpose of which was the burning to death of the immates of

the fired buildings. The accused is a young man of normal appearance, living at Spandan; lecksmith by occupation. had previously confessed his guilt to the police, but now he asserted his complete innocence, saying he was terrorised into making" falso: state-

"FROM THE INDIAN JUNGLES."

Apart from its morbid side, the case was given a special interest by the amazing theory put forward by defending counsel, who had unwillingly underaken the task at the request of the State.

Assuming there is something in the belief in the transmigration of souls," he suggested that "into the body of this man there has entered the soul of a man-destroying, blood-

thirsty riger from the Indian jungles." "In-the event of this idea being regarded as too far-ferched, counsel advanced the following speculation:-Either the prisoner is not a human being or he is suffering unknown to himself, from irresistible madness, the eract character of which cannot, in the present stage of psychological science, be defined.

TO BE MEDICALLY EXAMINED. "Two experts have declared that the accused may be degenerate to a certain extent, but not to such degree as to make him, in the eyes of the law, not responsible for his actions. I cannot regard it as conforming to my duty as defender; to scoope that opinion, and therefore. ask the court to appoint Government and medical college experts to examine the accused. So long as there is any doubt on the question, I cannot sully the word "humanity" by continuing my task."

The police prosecutor objected to this attitude of counsel, but it was

Present in the court were a large number of leading German doctors and psychologists; in whose circles the prisoner is regarded as an inexplicable human phenomenon, as they are unable to reconcile the horrible, in some instances motiveless and aimless, character of his crimes his apparently normal speech

SAFETY AT SEA.

FULL SPEED IN FOG.

POSSIBILITY OF SHIPWRECK REDUCED.

What whiskers are to a cat in a dark corner, what ears to a wild beast in the jungle—that is what the United States Navy M.V., type of hydrophone will be to the ships that thread their courses along the ocean hazards in seafearing. It will now be possible for a ship to continue at full speed through the densest fog, convoy system. knowing accurately the depth of water through which it is passing and keeping in close touch with the

chips in its vicinity. tion have come slowly and at long intervals. First, the compass: then the lighthouse; then steam power and larger vessels; last, the wireless. None of these eliminated the perils of thick weather. They could not save the "Titanic" in 1912. They could not avert the groundings that strew the coasts with new wrecks every year.

The men who have developed the hydrophone believe that their provides the ultimate safeguard. Storm remains, to be sure, the prime hazard, at sea, but they are confident that the hydrophone greatly reduces the possibility of shipwreck from any cause.

HOW THE HYDROPHONE WORKS. In principle the hydrophone is a simple device. In construction it is a maze of intricate and delicate electrical apparatus which is not easily intelligible to the layman. The principle is just that of a pair ears spaced widely apart. A man whose hearing is limited to one ear can judge the direction of sound with difficulty. The use of both ears makes it much easier for him, and if he were constructed on a larger scale, with his ears much, further spart, his range of hearing would be greatly widened.

The hydrophone takes up through its receivers all sounds which are transmitted through the water. registers the drumming of the propellers not only of the ship on which it is installed but of all others in the vicinity. It catches the submarine bell signals of the coastwise lights. It records the oscillating submarine, fog signals of ships in midocean. Most important of all, when the

receivers pick up the sound of a ship's propellers, they not only transmit the sound waves, but also

Naturally such a method gives the navigator a great advantage over the present means of sounding. To take ordinary soundings with the lead necessitates the slowing down or stopping of the vessel. With the hydrophone there need be no slacken-

ing in speed. Another peculiar advantage of the hydrophonic ears is that they can be focussed upon a particular vessel. This idea was given special attention while the instrument was being lanes. With this invention there developed because the hydrophone passes one of the last of the great | was being worked upon during the war, and the first thought for it usefulness was in connection with the

The device is chiefly the work of three scientists who co-operated with naval officers at the naval experimenposition and direction of all other tal station at New London. They are all professors of physics, G. Inventions making for safe naviga- Pierce of Harvard, Max Mason of the University of Wisconsin, and H. Hayes of Swarthmore. Their invention was not fully developed until the armistice was signed, and was accordingly of no service in the war. first information concerning their work was given out recently, when the United States destroyer Breckinridge made a test trip out of Nev York harbour, on which the representatives of many steamship companies

were guests. The first passenger vessel on which the hydrophone was tried out was "Vot Steuben." while in transport service in February, 1919, to see the possibility of safeguarding the transport of returning troops. On that trip it was definitely established that propeller driven vessels could be located in time to avoid collision provided that the depth of water was

not more than fifty or sixty fathoms . The soundings taken by means of the hydrophone have proved efficient that the submarine N-6 recenly made a trip from new London to Portland, round Nantucket and back to New London, remaining submerged throughout the entire course. DEVELOPED PROM WAR TIME DEVICES.

lopment of several years' experimen- devices made of softest leather unit of the ordinary telephone trans in Paris. mitter, mounted in small tanks, one on the port and one on the starboard side of the vessel, and designed to led to the development of the M. receive sound signals from such hydroplane. sources as submarine bells suspended beneath lightships. ...

indicate the direction from which of such a bell signal it was necessary the sound echoes. they are coming. This is made to swing the ship until its bow was At present the only ships on which possible by the fact that all sounds pointed directly toward the sound the hydrophone is installed are the in the water travel down to sea source. This was a tedious, time destroyers, the Breckinridge, the bottom, provided the depth is not consuming process, and, moreover, it Blakeley and the Bernadou. The The hydrophone measures the angle served its purpose in its day, was with the device. The hydrophone at which they are reflected back and considered to be of little use in hunt has been developed in the navy, but makes possible the calculation of the ing submarines, and accordingly the patent rights are commercially depth.

NOWHERE TO SIT. LORD CURZON'S BUSE.

HOW HE GOT A SEAT. An excellent story about Lord

Curzon is being told in Paris. A

Court banquet given by the Belgian Sovereign at the conclusion of the Brussels meeting was followed by a reception held in a large mirrored hall absolutely bare of all furniture Lord Curzon arrived at the dinner with a large black walking stick; which he carefully rested against his chair and jealously guarded during the dinner. Then he went to the reception room leaning very heavily on the stick, visibly walking with difficulty. Queen Elizabeth at once noticed him and gave instructions to have him supplied with a comfortable armchair, into which Lord Curzon sank with a sigh of relief. The man who told the story went up and asked him whether he was suflering severely from gout. He eceived the unexpected reply; "Not bit. I have been to things of this sort before, and knew there would not be anywhere to sit."

> FRANCE'S BID FOR TRADE.

SUPERSEDING GERMANY.

RAPID INDUSTRIAL STRIDES.

Rapid strides which France making to regain her industrial position were illustrated at an exhibition opened in mail week-at 153, Queen Victoria-street E.C., the premises of the Office Commercial Français French manufacturers are now able to produce practically all those articles for which their country was once dependent on Germany, This applies specially to electrical and surgical apparatus, scientific instruments, and laboratory equipment.

Among the exhibits were exquisite The hydrophone is really the deve- bandbags, with all kinds of cunning tation. Prior to the war certain richest satin, with clasps of jewels. types of under water listening devices | Perfumes, famous all the world over, had been developed for aiding naviga- were also to be seen, made from tion. These devices consisted of flowers of the Riviera; and turned microphones, which are the active into bottled scent in great factories

Its inventors believe that the hydrophone will detect the presence In order to ascertain the direction and position of icebergs by means of

THE UNDYING FLAME.

INDIAN SCIENTIST SPEAKS.

THOUGHT THE BASIS OF ONLY ENDURING KINGDOM.

The Inquirer of London reports an address which Sir Jagadis Chunder Bose delivered recently in London on "The Undying Flame of Thought" before a distinguished company of members and friends of the British and Foreign Unitarian Association. The great scientist said: "The intimate relation between the Unitarian Association and the Brahmo Somaj of India had not been of recent growth, but had lasted for a century from the time of the visit of Raja Ram Mohan Roy to this country. It may be asked how it is that the two communities so widely separated, one in the East and the other in the West, should have been drawn so dose together. The answer is that the common ideal of humanity is one, and that they would come to realize more and more the unity of all human efforts in the establishment of the King dom of righteousness. The speaker came increasingly to realize the idea of unity in the courseof his particular work. Is nature a cosmos in which the human mind is some day to realize the uniform march of sequence, order and Law? India. through her habit of mind is peculiarly fitted to realize the idea of unity and see in the phenomenal world an orderly universe. This trend of thought led him unconsciously to the dividing frontiers of different sciences, from the investigation of response in inorganic matter to that of organic life and its multifarious activities of growth, of move-

ment and even of sensation... The thrill in matter, the throb of life, the pulse of growth, the impulse coursing through the nerve, and resulting sensations, how diverse are these, and how closely unified they are found to be! How strange it is that the tremor of excitation in neryous matter should not merely be transmitted, but transmuted and reflected like the image on a mirror, from a different plane of life, in sensation and in affection, in thought and in emotion. Of these, which is more real, the material body or the image which is independent of it? Which of these is undecaying, and which of these is beyond the reach of Death?

It was a woman in the Yedic times who, when esked to take her choice of the wealth that would be hers for the asking, enquired whether that would win for her deathlessness. Many a nation had risen in the past and won the empire of the world; a few buried fragments are all that remain of the memorials of dynasties that wield ed the temporal power. Therehowever, another element which finds its incarnation in matter, yet transcends its transmutation and apparent destruction; that is the burning flame born of thought which has been handed down through fleeting Branches and

"Not in matter but in thought, not possession of even in attainments. but in ideals are to be found the seed of immortality. Not through material acquisition but in generous diffusion of ideas and ideals can the true empire of humanity be established."

CHINESE SLAVERY.

LEGAL IN HONOKONG?

- Japan Paper's comment.

The Republic of China has long been recognised by Britain, together, of course, with the laws of the Republic, yet it appears that at Hongkong old Chinese customs prevail and are actually the law. Lieut. Col. John Ward in the House of Commons recently related a conversation which he heard at a lunch at the Governor-General's house when the topic of child slavery arose. The Chief Justice, who was present, stated that it was very doubtful whether slavery was not legal in Hongkong. since, in taking over the territory authorised to enter premises and in-Britain had agreed to observe spect and seize unwholesome food. Chinese customs, of which slavery Mr. Hollingsworth pointed to the discussion ensued, and finally the - Chinese The death has taken place at Governor of Canton, who was the Aberdour on the Firth of Forth of chief guest, pointed out that while the price of the lands. Old Hoghle M'Lachlan. This severs slavery was a legal institution under For failing to register themselves a link with the days of the famous the Manchu Dynasty, the Republic within 48 hours of their residence in fast sailing China tea trade clippers, had swept away the practice and made it illegal. Its suppression had strange that the only place where who frequented the coast, and he tainly sometimes appears to be

IMPORTATION OF DOGS.

STATEMENT BY MEDICAL OFFICER OF HEALTH.

A meeting of the Hongkong Semtary Board was held in the Board Room, Post Office Building, yesterday afternoon. The Chair was occupied by Mr. G. R. Sayer, and there were present Dr. W. W. Pearse (M.O.H.) Mr. H. Hollingsworth, Dr. W. V. M. Koch, Mr. S. W. Tso, and Mr. C. M. W. Reynolds (Secretary).

Dr. Koch, in pursuance of notice. asked the following question :-"Will the Head of the Sanitary Department-ascertain for the information of the Board what steps are being taken for the treatment of cases of Hydrophobia in the Colony?" the Chairman stated that pending the arsival of instruments to enable the requested to send one cord monthly, 25.00 and keep for the treatment of any 25.00 patient who might apply for it. The 25.00 instruments were on order - from

> On the invitation of the Chairman the M.O.H.; made the following statement on the regulations governing the importation of dogs;-

. In view of the public interest being taken at present in the subject of rables. I wish to take the opportunity of drawing public attention to the regulations under which does may and may not be imported into this Colony. In the first piace it should be noted that the importation of dogs from Shanghai is at present entirely prohibited by order of the Governor in Council. From other parts of the

(a) On production of a certificate

(b) A statutory declaration by the captain of the vessel (or by the image porter if he has travelled with the dog) that no case of rabies occurred on board during the voyage.

With regard to dogs imported from China the following additional regulation is at present in force:-

from any part of China will be per-

Until further notice no dogs brought.

mitted to land in the Colony without the consent in writing of the Colonial Veterinary Surgeon. In default of the two above mentioned certificates (a and b) a dog must be placed in quarantine at the owner's expense for a period of three months from the date of importation. It is however, provided that if the Colonial Veterinary Surgeon is satisfied that the certificate described in (a) above has not been supplied owing to ignorance of the local law on the part of the importer, and he is satisfied further after due enquiry that there is no reasonable fear of the dog having been exposed to any danger of contracting rabies during the six months prior to date of shioment, a certificate under the hand of the Colonial Veterinary Surgeon may be accepted by the Captain Superintendent of Police in lieu of the certificate described at (a) above. wish to draw special attention to this last proviso, as it is evident that some Running Header from spring persons think that the Colonial Veterinary Surgeon will issue such a certificate purely as a matter of form. This however is not the case. - The regulations are intended for the protection of the public, and those who wish to import dogs will be well advised to provide themselves beforehand with the certificates (a and b) if they wish to avoid having their dogs

placed in quarantine. Dr. Koch: With reference to the answer to my question are we to understand, that the Government is willing to undertake the preparation of this emulsion as it is called. The Chairman said that the Government was prepared to undertake the

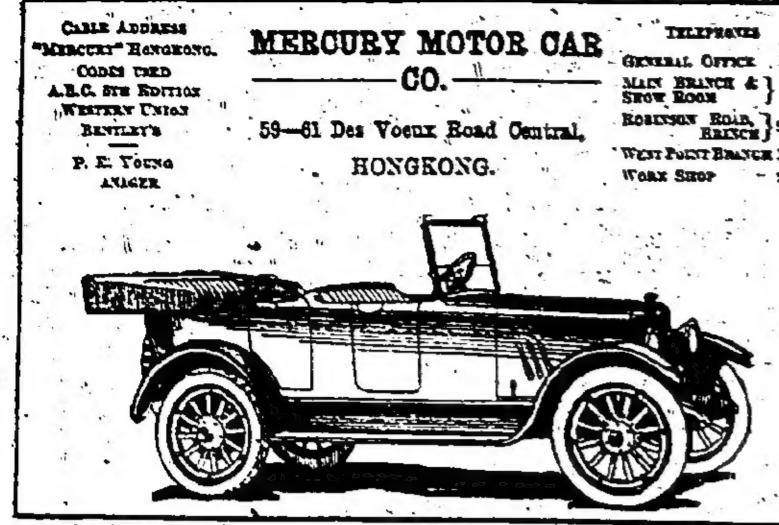

work. That was the only conclusion that could be drawn. Dr. Koch stated that it was entirely one man's work, and it would be too much if the Government Bacteriologist were asked to do it in addition to his

other duties. The Chairman acquiesced. - Sanitary Inspector Eccleshall : was

necessity of refusing licences to: carrying on offensive trades on agriculttural lands which would toud to raise

Dr. Koch said that from 1st July. to 14th July there were no less then 115 deaths from plague in Java and added that steps should be taken to guard against the disease. Other business was of a purely

CHINESE SERVANT GIRL'S

ALLEGED CRUELTY OF MISTRESS,

Before Magistrate Hutchison at the Chinese woman living on the first floor of No. 2, Fook Sau Lane, West Point, is charged at the instance of Inspector Willis, with assaulting an 8 year old servant girl with a cane Mr. T. Rowan appeared for the

The little girl, in the witness box, stated that on the afternoon of Aug. 27, she was tied to a bed post in the rear cubicle of the flat in such manner that she was very uncomfortable and could not swallow.

The Magistrate: Why were you tied? Because the defendant objected to my walking about on the verandah. What were you tied with?-A piece of cord about the thickness of

my thamb. How were you tied?-Round the neck, under the arms, and then round the body. I was kept in this uncomfortable position for a long time. When my mother came see me, the defendant did not have time to untie me, so she cut the rope with a knife. In doing so, she

slightly cut my cheek. Magistrate: beaten?—Yes, before I was tied. The defendant beat me first with the thin cane produced, and then with a thicker one. She beat me for quite a long time. I cried. She has never beaten me before that occasion.

By Inspector Willis: I did not hear the defendant say anything about re-selling me.

Mr. Rowan: You first went to the defendant's house on August 23?-

Your parents sold you to the dancing. defendant for \$70-Yes. On the following day you ran away and went back to your parents?-Yes, but they took me back to the

defendant's house, and defendant Two days later you again ran away ?- Yes, mother again took me

When your mother took you back nothing to eat that night. to the defendant, what did she tell

her to do to you?-Nothing. In the defendant's house, your to the police station. father took a thick stick and beat you?—No.

Then your mother did?-No, they were both too fond of me to do that. Your father asked the defendant

for a piece of rope to tie you with Then who tied you?-A woman! named Yee Kho. She re-tied me in stand that question?-No.

the manner I have described after I had first been tied. The Magistrate: Who first fied said those words. you? -A woman whose name I did

not know. Mr. Rowan: After your parents you wanted to go home with him, ant's house. and your mother gave you a slap?-

detective?-Yes.

teach you to say that it was the de she had explained.

you warn your mistress that if she came back to take you to the police whilst undergoing her steam trials did not unfasten you, you would tell station, were you tied then?-No, had occasion to anchor. When the people that she had done it?-No, the defendant cut the rope and time came to get under weigh again

Did your parents see you being ticd?—Yes.

ning away, tie her up?"-Yes. One morning, about 2 a.m., you

got out of bed and escaped from the tinuous with those on the arms. house?-Yes. You were discovered in your blow marks? Yes. mother's house and brought back?-

Again you escaped, sometime between 4" and 5 a.m.?—Yes, mother

brought me back, and I was beaten leg and 10 on the outside of the right and tied. When you told your father you

wanted to go home, the defendant sald to him: "You give me back my \$70 and take your daughter .away, Leannot keep her here"?-Yes. already spent the money, and the defendant must keep you? Yes.

Then, your father asked for piece of rope and tied you?-No.

West Point Branch 1349

SENT THROUGH THE POST

S'XTY TINS OF OPIUM.

HIDDEN IN NEWSPAPER MAIL. Twenty thousand pesos worth

opium was found in the mail in the Magistracy this morning, evidence 24, by the assistant chief of the city U. S. Post Office, Manila, on August section of the mailing division. While checking over the mail that came

> steamship "Loongsang," Cirilo noticed an exceptionally package newspapers. He tore open the corner of the package and saw that it contained merchandise of some kind Looking further he found four other similar packages.

A full investigation by the Custom Bureaus showed that the five packages contained sixty tins of high grade opium. Each tin contained approximately five taels of opium, or mor than three hundred pesos worth to the tin.

The packages were addressed to Ong San, Manila, and were posted at Amoy. Mr. Ong will now find it necessary to call at the Bureau of Customs Secret Service Department, to explain, if he can be located Neither the Bureau of Posts, the Customs nor the Police Department seems to have any record of a Chinese named Ong San.

The Customs Inspector who examined the packages said it was certain that the original owners had mailed them as newspapers at Amoy.

Hongkong had a clean bill of health yesterday.

The Misses Alleen and Dorig Woods plan to return to Hongkong about the end of September when they will resume their teaching of

Then what happened?-After my parents had gone, I was tied.

I put it to you that your mother gave you a jolly good hiding before she went away?-No.

After you were unfastened, you had your evening meal?-No, I had What happened after you were

unfastened?-My mother took me What time was that?-Before

Did you not tell your mistress when you wanted to go home, that your mother had told you that you were being sold for a few days only?-Yes. The Magistrate: Do you under-

When it was put to her a second time, the girl denied that she had

Mr. Rowan said that the point was

Inspector Willis replied that even had taken you back to the defen- if the girl had said the words, it was dant's house for the second time, only natural that her mother should when they were about to leave, you have cheated her in that manner in held on to your father's coat and said order to get her to go to the defend-

Examined by Inspector Willis, the girl said that a woman whose name Do you remember going to the she did not know, first tied her. She hospital in the company of a Chinese | did not do it properly, and witness released herself with case. Then Did not the detective on the way Yee Kho re-tied her in the manner

tied?-No.

released me.

Government Civil Hospital, said that placed upon it. It appears that it Did you ask your father to untie on the girl being admitted to the had not been cemented down properly. you?-My mother prevented him hospital at 6.35 p.m. on August 27, and that it had been secured to from doing so, and the defendant cut he examined her and found marks wooden beams. Some ship! comof caning on her body. She had Did your mother not say to the five marks on the outside of the defendant: "As she is fond of run- right arm, three on the outside of the left arm, an seven on the back: The marks on the back were con-

The Magistrate: They were one

The back of the left hand was swollen; continued witness, and bore five cane marks. There were also 12 cane marks on the outside of the left leg. All the marks were recent.

By the Magistrate: The child's condition was not serious. The blows were not severe. By Mr. Rowan; All the marks

witness found were made by a cane. And your father said that he had He did not find any scratches made by a finger nail. After further evidence the case

DANGEROUS PRACTICE.

Bombay is not to have its Port Trust Hotel after all. In view of opposition to the scheme, it is understood that the Viceroy has intimated that the Government of India cannot sanction the scheme, and the Bil which passed its first reading at the last meeting of Council by the casting vote of the Governor, will be with drawn at the next meeting. Some contracts had already been given out in connection with the scheme. These have been cancelled.

The French steamers which are being built at Hsinho near Tientsin have caused no little amount of comment. Six wooden schooners that fendant and not your mother who Did your parents see you being were built all stuck on the ways whilst being launched. PRISONER PONTIFF.

RESTRICTIONS THAT SURROUND HIM

the pages of Ranke; conjuring the bay Government has agreed to give was damaged beyond repair. Wit-Colonna and the sustained splendours the G.I.P. Railway who has been ap ten by the accused to the Consulother days, and then switching for- Bombay, is Rs. 6,000 monthly. Sir June 22, 1920, the accused said he has just been described to me by an salary of Rs. 2,000. intimate as "the cruellest life on earth . . . A life of appalling responsibility with not one loophole

for relaxation. And if you enquire into things you will probably agree.

To begin with, anyone condemned to live in Rome all the year round for the rest of his life must rapidly become the victim of a sapping malarious summer climate, with confinement to the Vatican a mental burden aggravating the physical one.

But restrictions upon the Pope by no means end there. He must always eat alone, day after day, week after week, month after month year after silence of that meal!-and as if some rail was discovered dislodged yesterpetty, nursery hand were pestering day near Pingyang and it is believed him, he may not carry a watch!

Fifteenth, on being asked at his election what Papal etiquette he favour-"Everything as in Leo the Thirteenth's time." And so it has been.

Here is the Pope's day 5 a.m. to 6 a.m., meditation and prayer; 6 a.m. celebrates Mass privately; 7 a.m., attends a second Mass, kneeling throughout: 8 a.m., black coffee. The next five hours are taken up with correspondence and audiences. "Every letter of three or four hundred a day the Pope reads or has read to him, and as an example of his thoroughness in regard to audiences, I have met a young English girl here whom he received for half an hour privately and ultimately counselled not to become a nun.

At one o'clock, the little sallow,

stopping, be spectacled figure eats a neasant's meal all alone-macaroni, cheese, olives, bread, and wine from Frascatic Then follow an hour's siesta, a carriage drive in the Vatican gardens, and an hour's walk-the only exercise and relaxation of the day, during" which specially good story-tellers are deputed to accompany the Pontiff, and take his feverish mind off his task. The rest of the day, with a break for a silent meal at 7 p.m., is given over to unremitting work which does not cease till midnight strikes. And that is going on till death. . . . Twice - only has the Pope wavered from his programme. Once when he married Pope, whose main work was the the night and, at a sudden impulse, brilliant brain for State affairs, nurwho, just before his death, made him Cardinal Merry del Val, but his forte a cardinal, and who, they say, will is his faculty for seeing a definite some day be made a saint.

An extraordinary change has come bration taking place this year-is over Benedict the Fifteenth since he cited, and for another, one might was elected six years ago. 🐩 😗

into the Vatican like a whirlwind, here, for a postponement. enemies, and became widely mis against the sheet-anchor of body, do everything.

fight up but immobile and keeping again. his arms quietly down by his side." One doubts if B hedict the Fifteenth | Corporation, has recently perfected informant, the will be a great Pope." All roads have led to Rome latterly used in place of a steel shell. The Politically?" I asked.

In five more years," added my would accept the offer were it made the invention of a paper shell to be as never in the past. To break the buyentor claims that the paper shell "No, not exactly politically, and Mecca-like spell might be a faulty is just as effective in war as the steel

CONSUL INTIMIDATED.

SHASHING A TYPEWRITER.

Charles Grant has been charged by national Court with causing damage ensity be replaced. to the property of the British Legation and with sending insulting and threatening letters to the British Consul-General, says

The accused, who was in custody, was produced before the International Court on August 13. Mr. R. G. McDonald, the Legal Adviser, sitting in the case, interpreted and explained the prosecutor's indictment to the accused, who admitted that he had smashed a typewriter at the British Legation but denied that was the property of the Legation. He admitted writing the letters comlained of to the Consul General, but intimated that he would prove that he was justified in writing them.

secution was Mr. Warton of the

the accused went into the British typewriter which was the propert Bombay, August 10.-It is under- of the British Government, dashed would then be enabled to make a statement in justification, in which he would charge the British consular arthorities with "persistently protecting and condoning Mines Office maladministration.

> THREATENING THE CONSULGENERAL. The second letter was more or less to the same effect except that it contained a direct threat that accused would do bodily harm to the Consul-General and other persons.

Mr. B.-C. Neoh, clerk at the British Legation, was the next witness. He said he saw Mr. Grant walk up to the typewriter, lift it up and dash it on the floor making the remark at the same time, " Tell Mr. Lyle I did

After calling police evidence the Public Prosecutor closed his case. The accused was asked by the court whether he wished to have legal assistance to help him in his defence, but he replied that he preferred to conduct the case himself. He wished to give evidence on oath in his own behalf. After being sworn the accused made a long statement going very minutely into his transactions with the Mines Department during his eight years stay in this country. The court continually reminded him that he was going far beyond the bound of relevancy also that being an undefended prisoner the court was willing to allow him as much latitude as possible but that he must not take advantage of the court's indulgence. The accused persisted, however, and when the court rose at 4 p.m. he had not come to the conclusion of his statement.

continued with his evidence and put modified, and in practice only two F. S. Kilby and Mr. A. Sunman lost many pages of foolscap. He contheir lives has been conducted by cluded his evidence at noon-and Mr. C. Tiffany, the head of the ! asked the court to take the evidence aviation department of Messra. Sale of a clerk in the British Legation and Frazar. It is reported that none and of the manager of the Smith of the control wires were found to Premier Typewriter Company to be broken, but the two safety belts prove that the typewriter damaged to hold the pilot and the passenger by him was not the property of the

A PETITION TO THE KING The accused also intimated that he was desirous of sending a petition to and in an effort to regain his position His Majesty the King of Siam, but fouled the controls. Death was in- that the official in charge of the stantaneous, as both aviators were remand prison would not give him permission to do so. The Court informed the accused that he must appeal to a higher Prison Authority Later the accused called Mr. W. Silva, manager of the Smith Premier Typewriter Co., who after referring to the sales book deposed that the typewriter in question was not sold by the branch of the company in Siam. Mr. Hendriks, clerk in the British Legation, said that the typewriter was the property of the Consulate and it was given him to use when he became an employe of the Legation in November, 1919. This concluded the accoused's defence. He then made a statement which he regretted the reference he made to the British Minister in his letters, and wished to withdraw anything he had written, but he could not withdraw anything he had said about the Consul-General nor was he prepared to apologise for

> The court adjourned for judgment, and accused was subsequently sentenced to one month and twelve days imprisonment and a fine of

DEATH PENALTIES.

WHERE THE AXE IS USED.

HOW IT IS DONE IN CHINA.

You might suppose that it was A Canadian mining engineer named | perfectly simple matter to hang man and that therefore the hangmen the Public Prosecutor in the Inter- in Germany who are on strike coul

Facts go to show that execution by the rope is not a particularly easy affair and that it requires considerable experience to give the exact longth o drop required in different cases.

Berry, who was responsible to about a hundred and thirty executions in this country, used to test his appara his over-night with a bag of sand (approximately the same weight as nex norming's victim.

In any case hanging is not the usual form of execution in Germany. Prus still retains the old-feshioned headsman with his are and block Brunswick, Oldenburg, and Beden have altogether; abolished the death penalty, while in some parts of the The first witness called by the procountry the guilloune is retained.

The only other European country British Legation, who deposed that besides Prussia in which the are is still the means of capital punishment s Denmark. But it is a great man years since sentence of death actually carried our in Denmark. Be gium, like France, uses the guillotine, but, as in Deamark, it is a very long time since the last execution.

The guillotine, by the by, which is supposed to have originated in France the year 1792, is nothing but revival of the engine called " laiden " commonly used in Scotlan the lifteenth and sixteenth centuries.

Italy, Portugal, and Rumania ha all abolished the death penalty. Curi ously enough, Russia was the fire country to take the lead in this respect. That was as long ago as 1750 but it was restored later, and thousands have since perished by beheading, hanging, or the terrible knout. -Spain still executes her murderers

in public by means of the garotte. The garotte consists of a brass collar containing a screw, and when this is turned by the executioner the sharp point merces the spinal marrow, causing instantaneous death.

Japan is more civilised in this direction than Spain, for she hangs her criminals in private inside a prison. Many people are under the impression that all criminals semenced to death in the United States are elecrocuted. In reality the "chair" used only in New York, Massachusetts, and Ohio. Elsewhere hanging

remains the legal punishment. At one time there was an agitmoon in certain Western States to allow man sentenced to death to swallow poison in his cell. But the only country in which such a practice prevails Morocco-one should say was Morocco-where, up to a few years igo, a man of high birth, charged with treason, might receive a gentle hint, in the shape of a cup of poison-

China decapitates her criminals. The executioner uses a sword, not an axe, and is proud of his ability to cut off a head with a single blow. Government has not yet abolished the lung ch'i or lingering death. This which used to consist in literally slic-The following day the accused ing the victim to death, has now been the aeroplane accident in which Mr. in a written statement running to three cuts are inflicted before the faial

TALE OF THE SEA.

REMARKABLE STORY. THRILLING SERIES OF

ADVENTURES

A remarkable story of adventure at see was told the other might by a member of the crew of the Commonwealth steamer " Carawa," which was wrecked in March last on one of the Gaiapages islands, in the West Indies.

Shipping originally on the Berrims he passed two and a half years in the North See. He was on the barque Burrowa " when the Germans sank her by shell-fire, and later on board the steamer." Tyne " when she was torpedoed. The "Tyne's " crew was rescued by a trawler, which in turn was mined near the French maval station of Brest.

To complete his adventures the seaman joined" the "Carawa," which arriving at Fremantle in the midst of a strike, was compelled to return to England, whence she sailed for the Azores with coal. From the Azores the "Carawa" left for Port Arthur, Texas, where she shipped a cargo of 112,000 cases of oil, valued .000,000 dollars.

SIGHTS BURNING STEAMER. The "Carawa" sailed from Port Arthur on March 15, and when one day out from Panama the lookout-man sioner, writes:signed the steamer "Olockson, which was in flames. The "Carawa" spood by her for half an hour-when been rescued.

About 4 p.m. afternoon, when about one hundred miles Panama, a disabled hunch was sighted. One of the crew boarded the Carawa " and informed the master that there were five South Americans on the launch. They had been without food or water for four days.

The steamer's engineers being unable to repair the defective engine, the "Carawa" took the launch tow, and reached Porto Chico, Charham Island, on March 21.

disastrous to the "Carawa," for when backing out from Porto Chico the steamer struck the rocks about a mile from the shore, a large hole being torn in the stern.

IN A PENAL SETTLEMENT. The crew stood by the "Carawa for three days, when Captain Hyde decided to abandon her... They landed on the island, which is the penal! colony of Ecuador:

A ship appeared in the distance on the first Sunday of their exile. those on board failed to notice their signals of distress.

For five weeks the "Carawa's men fought mosquitoes and endured greet hardships and exposure, existing on stores which they had been able to secure from the wreck, supplemented by the meagre fare of the convicts. From this plight they were rescued

by a 40-ton schooner, which took them to Guayaquil-600: miles away -in 18 days. An English vessel car- President, Mr. R. Hancock, Viceried them to Panama, and the most President, Mr. Weyman, Hon. Secret serious result was a case of rheumat- ary and Mr. Brawn, Hon. Treasurer. ism made acute by exposure.

Heads were in sight. Then a second disabled launch signalied for assistance. "The " Australrange " mok the craft in tow, but the fine parted, and the captain reported the matter to the pilot steamer, which immediately wen o the rescue.

Within four years the seaman from the Berrima has been four times lost at sea.

LOSSES FROM STRIKES

what labours folly COSTS.

WARNING TO FAR EAST

Statistics to hand from America set out some of the heavy losses that country has sustained in recent strike. Labour and Capital have both been hit, and a consideration of the figures may well give reason for thought in industrial circles in the Far East, where labour troubles are being organised or are at least foreehadowed. In 1919 labour in the States lost nearly \$725,000,000 and industry about \$1,500,000,000. The production of bituminous coal decreased 130,000,000 tons and anthracite 12,000,000 tons: 9,000,000 tons less of steel ingots; 5,000,000 fewer cotton bales than 1914: 76,000,000 bushels less wheat than -1915; 140,000,000° bushels less corn than 1917; \$10,000,000 less gold and \$5,000,000 less silver than in 1918. The State of Pennsylvania alone lost some 4,655,118 working days last

HONGKONG TIDES.

The tide-table given below has been ampiled at the National Almanac Office in London from the result of the analysis of observations taken by means of an antomatic tide-recording machine in the Water Police Basin at Tsim Sha Tsu during the years 1903-8.

The zero of the table corresponds with the zero of the sounding in the Admiralty Chart, which has been found to be 4 feet inches below mean ses-level

To obtain the depth of water on the ade gauge at the Victoria Naval Yard add 3 feet 4 inches, and on the gauge at Lamont Dock, Aberdeen, add 10 feet inches to the height given in the table

CABLE COMPANY'S CASE.

INCOME TAX PETITION.

IMPORTANT MADRAS JUDGMENT.

The Madras High Court delivered judgment on July 29, in an important income tax petition. The Eastern Extension Australasia and China Telegraph Company, incorporated in England, applied for a mandamus to issue to the Income Tax Commissioner of Madras to refer the question; of their tax to the High Court.

The question asked to be referred was whether in estimating the profits of the Madras branch of the Company, two sums, £363,344 and £7,609 being excess profits and income tax 2.—South court of China between paid at Home, should be deducted. The Company contended that under the rules framed under the Income Tax Act they were entitled to the deduction. The Board of Revenue refused to refer on the ground that the application was after the awardhad been made and that the question depended entirely on the executive orders of the Government and that no point of law was involved. "Mr. Justice Kumaraswamy Sasori, while dismissing the petition on the ground that it was put in after time, observed that the refusal of the Board of Revenue to refer, as the question depended on the executive orders of the Government, was untenable, as no executive order could over-ride the provisions of the Income Tax Act or the rules made thereunder. The question raised involved points of doubt and difficulty and if the application had been made during the course of the proceedings, and had been rejected by the Board, His Lordship, would have ordered the mandamus. There was no order as

> SUMATRA OIL FIELDS. JAPANESE INVESTMENT.

The statement that Japanese are contemplating investment in the oil fields of Sumatra, and if they could only get the Government's financial assistance would invest ten million yen in exploitation of Dutch territory once more draws attention to the difference between Japan and other countries as regards land ownership. says the Japan Chronicle. No such scheme would be possible on the part of foreign capitalists in this country. The mere suggestion would raise a storm of public protest. Yet the Japanese papers record the endeayours of Japanese capitalists to obtain control of Sumatra oil fields as if it was the most natural thing in the world. Great is the virtue of reciprocity—in the abstract!

CHALMERS The Chalmers "Six" has always been known as an unusual car. Even at the birth of motor cars it was considered a product of the master builder. Time has but raised it in the estimation of the world. And to-day the new model represents the evolution. of progress in motor car building. The feature of its construction is the famous "Hot Spot and Ram's Horn" engine. The hot gases of the exhaust play upon the "Hot Spot" and heat the fuel on its way to .. the cylinders, rendering it easily combustible. Right hand drive; complete appointments; magneto equipment; two-unit electrical system. CHALMERS MOTOR CAR COMPANY Cable Address: "UMCO" 1808 BROADWAY, NEW YORK

MESOPOTAMIA.

THE SITUATION GROWS MORE OMINOUS.

CAUSE FOR ANXIETY

LONDON, August 30.

Another War Office communique states:- "The situation in the Muntapik area, namely between the lower Tigris and the lower Euphrates grows more ominous owing to violent Jehad preaching. The situation around Samewah also causes anxiety. Movements of rebel bands have been observed and renewed attacks are expected. Fifteen hundred rebels who attacked Hilla on August 26 were repulsed by heavy shell-fire. There has been a recrudescence of sabotage against the Bagdad-Shergat railway. It is reported that Government officials were molested east of Bagdad. The construction of block houses on the railway from Bagdad to Bakuba

WILL BOLSHEVIK QUESTION CAUSE A SPLIT

There seems a possibility of a split in the French General Labour Confederation on the question of Bolshevism. Secretary Jouhaux at a meeting of the Confederation on Tuesday evening said: "We recognise the right Swatow, Amoy and Foochow-Per of none, not even of Lenin, to interfere in our affairs."

COUNTY CRICKET

Essex beat Somerset by four wickets.

INLAND AIR MAILS.

THE FIRST SERVICE.

LONDON TO GLASGOW. While, almost without exception,

officials and publicists have been urging that the first and greatest opportunity fer aircraft services would be over great distance and with countries ill-provided with rail ways, arrangements have been going forward to demonstrate almost the exact contrary. The first fruits will be the zir line from London Glasgow, to be operated by the famous firm of Beardmore. This line is to convey passengers

mails, and goods. It is to mails that the service will have to look for a steady J. H. Hallock, Mr and Mrs C. Henriques, load, and it is to be hoped, writes an

tween two such great cities it is important to remember that each is the centre of a group of busy towns and that by means of an air line early rail connections to the outlying districts can be caught, thus saving n some cases many hours. An aviation correspondent, Major C. C. Turner, points out that he

In considering an air service be-

advocated these views more than a year ago, and that for a long while was alone in advocating them. In its recent report on Civil Aviation the Air Ministry reaffirms the view that there is little hope for inland air traffic in Great Britain, but of late expert opinion has been turning against this attitude, a notable case being that of Mr. Holt Thomas. The fact is, busy railways are proof of heavy mail traffic, which is essential to a profitable air service; and a distance of 300 miles is sufficient to prove the value of sircraft.
